

Accessibility report of popular pages

Sending organisation:	II High School Queen Jadwiga in Pabianice
Host institution:	Platon Schools
Number of the undertaking:	2019-1-PMU-1333
Title of the undertaking:	International mobility of students as a tool supporting the fight against digital exclusion of people with disabilities
Group members:	Antoni, Ada, Jakub, Aleksandra, Kelly
Mobility period:	10.11.2019 -16.11.2019

Inroduction

Following the rules of WCAG 2.0 standard the group prepared the accessibility audit of two popular pages in Greece (<https://www.paokfc.gr/en/> and <https://www.e-food.gr/>). Web Content Accessibility Guidelines (WCAG) 2.0 covers a wide range of recommendations for making Web content more accessible. Following these guidelines will make content accessible to a wider range of people with disabilities, including blindness and low vision, deafness and hearing loss, learning disabilities, cognitive limitations, limited movement, speech disabilities, photosensitivity and combinations of these. Following these guidelines will also often make your Web content more usable to users in general.

3.2.5 – Change on Request	Don't change elements on your website until users ask	YES	NN
3.3.5 – Help	Provide detailed help and instructions	NO	NN
3.3.6 – Error Prevention (All)	Reduce the risk of all input errors	NN	NN

Summary

Both pages have a lot of problems with accessibility WCAG 2.0. As the main problems we identified the difficulty of controlling pages using the keyboard and the problem with the images on the page and the way they are presented.
